# Who we are

Salman Binsaleh Steel Products Company (SBS Engineering) is a premier organization specializing in engineering, manufacturing, and technical services, particularly in the Oil & Gas, Energy-Power, and Petro Chemical industrial sectors

We established in 1999 by Salman Hassan Binsaleh, a former Saudi Electricity Co. Ghazlan Power Plant employee, SBS has grown to become a trusted name in the industry. The company is based in Dammam's 2nd Industrial City, Kingdom of Saudi Arabia.

SBS Engineering is renowned for its expertise in projects, oil and gas static equipments manufacturing and services, fabrication and heavy structures, re-engineering, industrial trading, and etc.

With a state of the art shop floor and a team of highly skilled engineers and qualified technicians, SBS is equipped to meet a wide range of engineering and technical requirements.

## Our Expertise

Over the years, SBS has successfully executed contracts for major clients, including Saudi Aramco (Jazan, Fadhili, Ras Tanura, Haradh, and Hawiyah, Marjan-Tanajib), Bapco BMP- Bahrain, Saudi Electricity Company (Steam & Gas Power Plants), SABIC, Samsung, TASNEE, SADARA, and many more. The company's commitment to excellence and continuous growth in service capabilities has solidified its position as a leader in the industry, delivering high-quality solutions to some of the most challenging projects in the region.

At SBS Engineering, we take immense pride in the exceptional services we provide to our diverse clientele.

Our commitment to delivering sophisticated engineering solutions is unwavering, and we have implemented strategic measures to ensure that our offerings are perfectly aligned with the evolving needs of our clients.

We uphold the highest standards of quality and perfection, with a zero-compromise approach that is central to our mission of enhancing client satisfaction.

**“Premium Services  
&  
Zero Compromise in  
Quality”**

# Services & Products

## **Industrial Petro-Chemical Projects:**

- Turnkey project management including the construction of refineries, plants, and factories.

## **Oil & Gas Services:**

- Manufacturing of mud systems, special/portable static tanks, batch mixers, bulkers, low beds, portable skid mounted tanks & storage facilities and custom skids.

## **Rig Services:**

- Fabrication of rig mast sections, monkey boards, and mating boards, maintenance of crown blocks, dead weights, and other rig components.

## **Structural Steel Fabrication:**

- Primary and secondary structural steel fabrication for turnkey projects, including platforms, pipe racks, and pipe supports.

## **Fabrication of Static Equipment:**

- Production of silos, storage tanks, hoppers, vessels, mixers, strainers, and other static equipment.

## **Energy Projects:**

- Fabrication, repair, and maintenance of plant equipment, support structures, Access platforms, process piping networks, and exhaust & silencer refurbishments.

## **Industrial Machining:**

- Precision machining of heavy flanges, shafts, sleeves, bushings, bearing housings, casings, and more; including re-babbiting of journal bearings and thrust pads.

## **SBS Overseas Wing - SBS.DE Re-Engineering & Trading Co. Ltd:**

- Reverse engineering, manufacturing, and mass production of parts from a wide range of materials including Monel, Inconel, Super Duplex, Duplex, Cast Alloys, and Stainless Steel (300 Series, 400 Series, and more) using advanced engineering and manufacturing techniques.

✓ Delivering results with unwavering reliability and rock-solid dependability.

✓ Embedding excellence and innovation into every client engagement

✓ Building professional relationships through consistent & high quality services

✓ Crafting real-world engineering solutions through creative enhancements.

✓ Engineering and executing projects with the utmost precision

✓ Brilliant Engineering Solutions tailored to every clients' needs

A photograph of an industrial factory floor. In the foreground, two workers wearing blue hard hats and work clothes are standing on a metal grating platform. One worker is holding a tool. In the background, there are large industrial machines, yellow safety railings, and stacks of cardboard boxes. The scene is brightly lit, suggesting an indoor industrial environment.

**“Engineering  
Brilliant Solutions”**

# Meet Our Oil & Gas Product Line

## Rig Mast Sections

SBS specialize in creating custom mast sections and substructures for drilling rigs with integration of advanced engineering and manufacturing techniques to produce high-quality, reliable components

## Mud System Manufacturing

SBS's capability to manufacture complete mud systems & can provide tailored solutions that enhance the efficiency and safety of drilling operations. This includes sophisticated fabrication techniques that are optimized for specific drilling conditions and requirements.

## Mech/ Elect. Storage & Camps

Fabrication of mechanical and electrical workshops, as well as camps, ensuring safe, efficient, and productive with custom specification as per customer requirements.

## Mud Gas Separator Skids

SBS excels in the manufacturing of Mud Gas Separators (MGS) and degassers, leveraging their high efficiency and skilled technical team to deliver top-notch performance in drilling operations.

## Storage Tanks

SBS is highly effective in manufacturing a wide range of storage tanks tailored for various applications and storage needs with all industrial standards, codes and specifications.

# Meet Our Oil & Gas Product Line

## Pipe Racks

SBS specializes in manufacturing of Customize & Versatile Pipe Storage Racks taking into consideration of customer needs of Optimizing Space Utilization, Enhance Safety, Damage Prevention & Durability

## Pipe Baskets

SBS expertise in manufacturing Easy Access & Retrieval Pipe Baskets to improve efficiency, minimize the risk of damage, withstand heavy loads and reduce the risk of accidents to promote a safer work environment on all oil & gas working conditions.

## Driverover Cable Tray

SBS specializes in manufacturing Robust Material Drive-over cable trays as per the customer need to make them a practical solution for managing cables in dynamic and fast space environments.

## Grass Hopper

SBS Specializes in manufacturing of Grass-hopper for Oil & gas sector with highly monitored Quality control measures are implemented throughout the manufacturing process to ensure compliance with industry standards and specifications

## Rig Matting

SBS well expertise in manufacturing of all types of Rig Matting Boards for maintaining a stable and secure surface for heavy equipment along with reducing the risk of accident, enhancing the durability of drilling rigs.

# Meet Our Petro Chemical. Energy Power Project Line

## Turnkey Projects

SBS undertaking turnkey projects for the petrochemical, energy & power sectors with all structural, piping & equipment installations

## Structural Steel Fabrication

We are one of the leading Saudi Aramco 9-COM approved facilities in the eastern region of KSA with easy access over the middle east countries. SBS well experienced in the fabrication of all kinds of structural steels, pipe racks, access platforms & etc.

## Special Pump Skids

SBS Manufacturing specializes in creating custom pump skids for various applications in the oil and gas industry. Advanced welding techniques and pre-qualified welding procedures are used to ensure the structural integrity of each skid.

## Piping Networks

SBS Manufacturing's expertise in designing and fabricating piping networks is indeed impressive. By focusing on high-quality materials and rigorous testing, we guarantee the integrity and reliability of the systems, making us a trusted partner in the oil and gas industry.

## Reverse Engineering

SBS Engineering play a pivotal role in creation of OEM Parts by identifying weakness or failures in existing parts, allowing for the design of improved versions through especially competent reverse engineering team which helps the customer to enhance the reliability and lifespan of machinery.

**Mr. BinSaleh,**  
You are pleased to inform you that your company is included in the Saudi Aramco Supplier Information System under Vendor Code No. 10112027, and PSL# 2007 4782 for the following products provided your company conforms to the relevant Saudi Aramco and Shell Aramco standards.

**SCOPE** Description:  
Description: **STRUCTURAL STEEL**  
Product description:

This approval, however, should not be construed as a contract by Saudi Aramco or Shell Aramco. You are approved as a supplier only upon your company's agreement, along with other approved suppliers, to respond to requests for quotations, proposals in accordance with Saudi Aramco's established policies and procedures. All contracts, agreements, and orders will be based on the terms and conditions stated in your own tendering process (RFP, RFQ, etc.) unless stated otherwise.

Saudi Aramco wishes to remind you that being recognized as a supplier is a privilege which carries with it serious obligations and responsibilities to all in a local and global manner. You wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledge. Failure to abide by the principles set forth in the SCOC can result in disqualification being given by Saudi Aramco against you. It is your responsibility to ensure that you are a supplier. Saudi Aramco also requests each of its suppliers to take full notice of the requirements of any purchase agreements or orders which might be issued and to act responsibly and reliably as a supply chain partner.
